WORK EXPERIENCE

Business Analyst Retainer— Tata Electronics Pvt. Ltd.

Nov 2025 –present

- Analyzed large-scale operational datasets using SQL to track KPIs, utilization, throughput, and performance trends across manufacturing workflows.
- Built ETL workflows to consolidate data from multiple sources into a centralized reporting layer, improving data accessibility and consistency.
- Developed Power BI dashboards and KPI scorecards enabling real-time monitoring of operational metrics and reducing reporting turnaround by 30%.
- Partnered with cross-functional stakeholders to gather requirements and translate business needs into analytical solutions.
- Conducted root cause and variance analysis to identify inefficiencies and support process optimization initiatives.
- Automated recurring reporting and validation processes, saving 15+ hours/week of manual effort.

Business Analytics Intern — Outlook Publishing Group

May 2024– July 2024

- Analyzed and modeled 20,000+ records using Python and SQL to forecast sales trends, improving prediction accuracy by 18% and supporting data-driven decision-making.
- Performed exploratory data analysis and KPI modeling to identify demand and engagement drivers, improving campaign efficiency by 15% and customer retention by 12%.
- Designed and automated ETL pipelines and analytical workflows, reducing manual processing by 40% and cutting reporting turnaround time from 2 hours to 30 minutes.

R&D Intern — NIT Warangal

Nov 2023 – Dec 2023

- Designed and optimized image processing pipelines using Local Binary Patterns (LBP), OpenCV, and NumPy, achieving a 17% runtime improvement through algorithmic and computational optimizations.
- Prototyped and evaluated CNN-based deep learning models using TensorFlow, PyTorch, and Keras, applying transfer learning to improve image classification performance.
- Curated benchmark datasets (Corel-250) and automated model evaluation workflows using k-NN and SVM ranking models, reducing experiment evaluation time from 2 hours to 30 minutes and improving reproducibility.

EDUCATION

National Institute of Technology (NIT), Warangal,
B.Tech in Mechanical Engineering

Dec 2021 – Apr 2025

TECHNICAL SKILLS

Data Analysis & BI: SQL, Power BI, Tableau, Advanced Excel (Pivot Tables, Power Query)

Programming: Python (Pandas, NumPy), Java

Data Handling: ETL Workflows, Data Validation, Data Modeling, KPI Reporting

Databases: PostgreSQL, MS SQL Server

Business Analysis: Requirements Gathering, Stakeholder Management, Process Improvement, Root Cause Analysis

PROJECTS

Real-Time Steel Damage Classification with AWS Cloud Technology | AWS Rekognition, Lambda, S3

- Designed and deployed a serverless computer vision pipeline on AWS to perform real-time defect classification, processing 5,000+ images/day for industrial quality control.
- Optimized and evaluated image classification models, improving accuracy from 82% to 93% while reducing false negatives in safety-critical inspection workflows.
- Automated inference and post-processing pipelines using parallel execution and cloud-native orchestration, reducing end-to-end analysis time from 2 hours to 30 minutes and enabling scalable deployment across multiple production units.

Domino's Branch Sales Analytics and Visualization | MS SQL Server, Power BI

- Built a sales analytics platform in MS SQL Server to manage and query 50,000+ transaction records, improving reporting speed by 35%.
- Designed a Power BI dashboard with advanced data modeling and DAX, providing real-time insights into 10+ KPIs such as sales performance, customer retention, and product mix.
- Conducted trend analysis and demand forecasting, boosting forecast accuracy by 20% and enabling data-driven operational planning during peak hours.

Leadership & Organizational Experience

- **General Secretary — NSS, NIT Warangal (2023)** – Directed 6+ large-scale community initiatives, including a Blood Donation Camp (350+ units) and Unity Run (500 participants). Spearheaded awareness drives, women's self-defense workshops, and technical talks, engaging 1,200+ students and improving volunteer participation by 35%.
- **Head of Logistics — SpringSpree, NIT Warangal (2023)** – Managed logistics operations for South India's 2nd-largest cultural fest (5,000+ attendees), coordinating 100+ volunteers and 20+ vendors. Perfected scheduling and resource allocation, cutting setup time by 2 hours/day and ensuring seamless event execution.
